

SHEQX®

SHEQ compliance that closes actions, not just spreadsheets.

SHEQX® aggregates safety, health, environment, and quality data into one auditable platform — giving you the visibility to prevent incidents, close non-conformances, and sustain ISO certification without the administrative drag.

THE CHALLENGES IT FIXES

Incidents tracked in email

Safety events get logged then forgotten. No closure, no pattern analysis, no learning.

ISO audits reveal surprises

Compliance gaps stay invisible until an external audit makes them official findings with deadlines attached.

Permits expire unnoticed

Legal appointments, MSDSs, and operational permits lapse because nobody owns the expiry calendar.

Actions with no accountability

Corrective actions raised, assigned, then orphaned. Months later, the same issue recurs.

PART OF THE XGRC® PLATFORM

SHEQX® runs on one secure, auditable data foundation with risk, compliance and assurance, so it is governed as part of the whole, not in a silo.
